Semco Stone owns and operates our own quarries. We pride ourselves in providing a natural and quality product. Our diverse landscape stone and building stone have some of the most unique products you will find. The beauty of our products is they are made from natural stone, therefore variations should and can be expected. Even though colors in our brochures are as close to the actual stone as possible, photographic and printing techniques – and even actual viewing conditions – can alter perception of color.

Selections should be made from actual samples whenever possible. Our samples represent the general characteristics of the stone. Natural variations can and will occur in size, color, and texture. Our samples are not to be interpreted as the only size within a sample range. Newly quarried stone can oxidize, darken, lighten, or otherwise change from the appearance either shown in the samples or represented in stock. Semco Stone does the best we can to maintain consistent colors and textures. Communication is key with landcapers, homeowners, masons, contractors and your sales representative so that Semco Stone can do our best to provide exactly what you need to complete your dream project.

As the largest distributor of natural stone products in the Midwest, at Semco Stone, we have earned our reputation through consistent products, advancements in technology, and quality and service that exceed industry standards, laying a solid groundwork for your success. If you are unclear about how your stone will arrive or what to expect when it is installed, ask a Semco Stone representative now. We operate about how your stone will arrive or what to expect when it is installed, ask a Semco Stone representative now. We operate in stock. Semco Stone does the best we can to maintain consistent colors and textures. Communication is key with landcapers, homeowners, masons, contractors and your sales representative so that Semco Stone can do our best to provide exactly what you need to complete your dream project.

“People don’t buy what you do; they buy why you do it. And what you do simply proves what you believe.”

For over 30 years, Semco Stone has been setting the standards for quality in natural building stone veneer and landscape stone. Located in Missouri, near the Mississippi River, Semco Stone resides in the heart of Limestone Country. Our product offerings include – natural building stone veneer, landscape stone, a variety of retaining wall stone, natural and man-made paving materials, slabs, and so much more! We have provided the elegant beauty of Mother Nature’s time-tested products to contractors, developers, wholesalers, distributors, nurseries, landscapers, garden centers, and retail outlets across the country since 1988.
Semco Stone has a long-standing reputation for quality when it comes to both our products and our locations. Our large, wide-open facilities feature some of the most organized stone yards in the country with a vast selection of products. Our interior and exterior showrooms offer an inspirational and innovative environment to see installed applications of our products. Our goal is to help you find the natural stone that best suits your project’s needs. With Semco Outdoor locations in Cincinnati, OH, Columbus, OH and Kansas City, MO and our parent company, Semco Stone in Perryville, MO, we proudly serve clients all across the United States.

SEMCO STONE OFFERS MORE LOCATIONS TO SERVE YOU BETTER

Semco Stone offers a Quarry Direct Program to give our customers an opportunity to buy product direct from the quarry and save money! There are also products available at the quarries that are not available off one of our stock yards.

For more information contact your Semco Sales Representative. Full trailer loads only (23 to 24 tons are on a full trailer load). No discounts or other promotions can be applied. Freight from the quarry applies.
8" DRYWALL COLLECTION

Installed either dry stacked or mortared, our natural stone retaining walls have an unparalleled beauty. Our 8" Drywall products are available in a variety of stones, whether you are looking for the rugged look of natural bed heights or the more formal appearance of sawn heights. Heights of this stone range from 2" to 8" and typically has random lengths, with snapped depths of approximately 8".

“My first experience with Semco could not have went better. The service was great. The staff was easy to work with. It is a great place to go if you need advice before starting your project!”

~ Eric, Source: Google Review

“We were building a new home in St. Louis and our masonry contractor recommended that we visit the Semco facility in Perryville. What an amazing place! The product selection is unmatched and the variety of stone and other materials enabled us to pick out all of the materials we need. The fantastic team at Semco guided us through the entire process of picking out Stone for our house and all the materials needed for our outdoor grill area and outdoor fireplace for the Veranda. I would highly recommend that anyone building a new house start with a visit to Semco Stone!”

~ Jim and Kate, Creve Coeur, MO
STEPPERS COLLECTION

Mortared or dry stacked, Steppers can be used for small retaining walls, as stepping stones, or for walkways. Small size and irregular shapes are indicative of this natural stone material. Steppers are typically between 1/2” to 2” thick with diameters that range from 6” for Shims to 36” for our largest Stepper. This stone is available in many of the same selections as our flagstone material, in a variety of colors and sizes.

TRAVERTINE COLLECTION

Tumbled Travertine Pavers are ideal for pool decks, patios and porches. The tumbled finish gives a texture to the travertine which makes it slip resistant.

Travertine pavers by Semco are a natural product with no chemicals and travertine will not retain heat, unlike concrete pavers.

The beauty of your home will be accentuated for years to come as well as increase your home value.

**COBBLES COLLECTION**

Used mostly in water features these smooth textured rounded stones offer a unique accent to any landscape project. Cobbles can also be used as Edging, in dry creek beds, or to accent plant beds. The small size of these stones allows for easy handling and rapid installation. Cobbles are available in sizes that range from 1” to 18” in diameter in an endless assortment of colors to choose from.

BOULDERS & LEDGEROCK COLLECTION

Boulders & Ledgerock have limitless applications in landscape projects. Semco Stone offers everything from granite to moss covered limestone for your project of any size. Boulders come in a variety of shapes and sizes, with diameters that range from as small as 6” to as large as 5’. Ledgerock ranges in thickness from 4” to 20”, depending on the stone.
“My experience has been great since the day I walked in the door. The salesman walked around not only with myself, but also with my two-year-old son and my one-year-old daughter. Semco even ordered samples for me so that I could take them home to show my husband to see the stone in person and for us to make the decision together. I will definitely refer Semco to my friends and family based on the great service and the super friendly and knowledgeable staff, it has been an amazing experience!”

OUTDOOR FIREPLACE KITS

Relaxing is simple with a Semco Stone Fireplace. These outdoor fireplace kits are the perfect centerpiece for any outdoor living space or kitchen that is sure to become a place of fun and memories for friends and family. Imagine roasting marshmallows over a crackling fire or enjoying your favorite beverage fireside. Now, that’s what we call relaxing!

FIRE FACTS:
48% of homeowners plan to add an outdoor fire feature to an existing space.

"Outdoor fireplaces are one of the most popular outdoor living design trends right now, and with good reason: they add a unique, fun and relaxing element to any outdoor space." Source: HGTV

OUTDOOR KITCHEN KITS

Outdoor Kitchen Kits by Semco offer quality, strength, and durability, as well as unparalleled design flexibility for any outdoor kitchen and entertaining areas.

The patented system can create infinitely configurable kitchen island layouts that assemble in minutes. The idea is to keep the process simple so you can enjoy your outdoor kitchen as soon as possible! These kits are a better, faster, and easier way to build your kitchen and outdoor living space.

PIZZA OVEN KITS

Our Pizza Oven Kits help backyard chefs easily create delicious meals with the unique and wonderful flavor of cooking with real wood! Featuring an arched cooking chamber. Kits include firebrick, the 9” chimney flue and metal oven door. These kits are an outstanding value, offering excellent performance, incredible versatility, and simple, labor-saving construction. And are designed for seamless compatibility with our outdoor kitchens and fireplace kits.
YARD BENCHES

Add a personal touch to your outdoor space with the addition of a Natural Stone Yard Bench available in either Blue River and Brentwood.

Blue River Benches are available in lengths of 3’ or 4’ and are 18” deep and 18” tall. Blue River Bench top & legs come with a standard Thermal finish.

Brentwood Benches are 40” – 42” long and 16” deep and 18 ¼” tall and are available with Polished top and legs or Sawn top & legs.

NATURAL STONE FIRE PITS

Enjoy the warmth of an outdoor fire and the modern style of our fire pit kits. The beautiful natural stone texture complements any landscape and the dimensional shape means fast installation and no waste.

*An insert is recommended to keep heat away from the stone.

Basalt Fire Pit

Tumbled Random Height veneer creates an old world, or aged appearance. Our collection of Tumbled Random Height veneer is snapped stone with heights created by the natural horizontal layering in the quarry formed millions of years ago. It is then tumbled to create softer, rounded edges.

Create Authentic and Luxurious Living Spaces.

Semco Stone’s Dimensional Collection is created when quarried stone snapped at random lengths are then sawn to specified heights, usually 2¼", 5" and 7¾" (10½" Jumpers available). Our Dimensional Collection creates a more formal look with it’s defined lines which also provides efficient and economical installations.

Bring the beauty home with Semco Stone.

Use nature as your inspiration.
CUSTOM CUT NATURAL STONE

UNIQUE: The diversity of natural stone products from Semco Stone encourages limitless design potential. Aesthetically, what you do with the stone is as varied as your imagination.

QUALITY: Semco Stone prides ourselves on providing high-quality natural stone products and we are committed to delivering the best.

INNOVATIVE: Nothing provides that unique look like natural stone, from exterior stone cladding, to window or door surrounds, profiles to straight cuts, inlined or curved cuts, holes and laser engravings. We are ready to make your project a reality with natural stone.

VALUE: Utilizing natural stone is now more affordable than ever due to advancing stone quarrying and processing technology that has improved efficiency over the years. The value in natural stone is more than a monetary measure. It involves longevity, ease of maintenance, permanence and stability that far exceed the initial investment.

AIA CONTINUING EDUCATION

Let us help your firm meet its Continuing Professional Education requirements. Our program is open to architects throughout the entire United States. Contact us today to schedule a presentation by one of our trained professionals.

Our Semco Stone continuing education program gives Architects and Designers a behind-the-scenes look at the Sandstone and Limestone Quarrying process. The topics we will discuss can help you determine where natural stone is a good fit. The presentation is approved through AIA, LACES, IDCEC and NKBA for one HSW Learning Unit.
HEARTHSTONES & MANTLES
Hearthstones and Mantles by Semco Stone are the final touch to your masterpiece. A natural stone hearth can enhance your fireplace design both in character and texture. Hearthstones and Mantles can be custom cut and finished to your specifications. Contact your sales representative for more information.

CAPS & COPING
Caps and Coping are the perfect complement to our natural stone veneers. Available either snapped or sawn they give your project the finished detail for countless applications. The possibilities are endless from pool surrounds to the finishing touch on columns, piers, entrance monuments, staircases and more. Caps and Coping are available in various finishes.

KEYSTONES
Keystones give the finishing touch to doors or other masonry openings to enrich the overall finish of your project. The sides can be sawn or snapped for a formal, rustic, contemporary or classic appearance. Keystones are available in various finishes.

SILLS
Sills can be used under windows and at the top of a stone wainscoat. Our sills can be custom cut and finished to your specifications, as pictured left. Our standard sills are sawn on the top, bottom, ends and back with your choice of snapped or sawn-face. Sills are available in various finishes.

QUOINS
Quoins give the finishing touch to corners or entryways and complement any of our veneer blends. Each piece has a snapped face and end. The top and bottom of the Quoins are available as sawn or snapped. Quoins are available in various finishes.

TRIMSTONES
Trimstones are precut stones used to stack either around or above windows and doors. They can be utilized either horizontally or vertically. Each piece has a snapped face and ends, and are sawn on top and bottom. Both heights are available in full veneer or ThinCut™.

STEPS & TREADS
Whether used for an indoor staircase, or exterior entrance, Semco Stone can produce custom Steps and Treads to complete your natural stone project. Steps and Treads can be custom cut and finished to your specifications, contact your sales representative for more information.

SEE PAGE 140 AND 141 FOR FINISHES AND DECORATIVE EDGE OPTIONS
This breathtaking Memorial Wall located in Perryville, Missouri was designed to remember those who have served or are serving and those who paid the ultimate price for the freedoms we enjoy today. A beautiful tribute to the Perry County Veterans featuring Custom Cut Brentwood Polished Stone and Weston Cream stone caps. A beautiful tribute to military men and women from generations past as well as those in the future.

Contact your sales representative for more information about how Semco Stone can help you with any custom cut projects.

NATURAL STONE COUNTERTOPS
Hearthstones and Mantles by Semco Stone are the final touch to your masterpiece. A natural stone hearth can enhance your fireplace design both in character and texture. Hearthstones and Mantles can be custom cut and finished to your specifications. Contact your sales representative for more information.

MONUMENTAL SIGNS
We all know first impressions are important. Semco Stone has created hundreds of great first impressions for neighborhoods, corporate offices and retail stores across the country. We are experienced in producing custom designed monuments, memorials and entrance signs for many unique projects over the years.

Semco Stone has a wide variety of colors, sizes and shapes that can help your project standout. Semco Stone will custom cut to your specifications. Contact your sales representative for more information. See page 140 and 141 for finish options.

BRENTWOOD TRANSFORMS ANY OUTDOOR SPACE INTO WOW-WORTHY

Semco Stone’s Brentwood can meet the needs of your lifestyle and the demands of your inspiration, and offers a perfect balance of performance and beauty in both indoor and outdoor applications.

Brentwood Slabs are available in 1 ¼” and 2” thickness. The slabs are available in a variety of heights and lengths. This stone can be custom cut to your specifications. Brentwood is a Quartzite Sandstone, when sawn it has the elegant look of a detailed woodgrain. Great for countertops, outdoor kitchens, hearths, caps, sandblasted signs & more!

Available in 5 Finishes: Polished, Honed, Antique Brush, Bushhammer & Sandblasted
Available in 6 Edge Treatments: Machine-Split, Rock Face, Full Bullnose, Half Bullnose, Bevel and Ogee

LIVE SLAB INVENTORY IS NOW ON-LINE!

Each of our Brentwood slabs are unique, so we make it convenient for you to browse our selection of Brentwood slabs online.

Please visit SemcoStone.com and under products choose Brentwood Stone. There will be two choices of 1 ¼” and 2” thickness. Contact your Semco Sales Representative for more details!

SEMCO STONE ALSO OFFERS SLABS IN THE FOLLOWING COLORS:

- Baltic Buff
- Blue River
- Brentwood
- Dove Gray
- Gunsmoke Gray
- Indiana Limestone

Tenax Poultice Powder:
Poultice Powder utilizes a stain process reversal technique that draws the stain out of the stone. Designed to remove stains such as oil, grease, wine, tea, coffee, and other stains out of stone.

Proseal Ultra Premium Sealer:
Proseal Ultra Premium Stone Sealer is rated by fabricators as one of the best granite, marble, stone sealers to be used on natural stone. No other sealer will penetrate and protect as well as Proseal.

Ager Tiger Color Enhancer/Sealer:
Ager Tiger by Tenax is a fantastic sealer against oil, graffiti, and household stains. Ager Tiger provides an excellent “wet” effect stone enhancement and sealer on natural stone and is VOC Compliant! See before and after below.

See page 140-141 for finish options. Contact your sales representative for more information.
SEMCO STONE CUSTOM CUT SLABS

The diversity of natural stone products from Semco Stone encourages limitless design potential. However, when using a natural product color variations may occur. Selections should be made from actual samples whenever possible. To have a custom project quoted or for more information contact your sales representative.
