

5 Reasons to Choose MAC Metal at Semco Stone

MAC Metal Architectural is a leading designer and manufacturer of durable, high-end pre-painted steel siding and roofing. For over 30 years, MAC has been offering its customers high-end steel roofing and siding products designed and manufactured in Canada. MAC offers products with rich and unique colors that bring style and elegance to any project.

And now, you can bring that style and elegance together with the utter beauty of natural stone. Check out these five reasons why choosing MAC at Semco Stone just makes sense.

1. 40-Year Warranty

MAC Metals uses superior grade steel and an incomparable painting process that ensures longevity and strength. That's why when customers purchase MAC products from Semco, they're getting a 40-year Quiet Warranty that protects their property against the weather.

2. Highly-Resistant Paint

With Textural III and IV, MAC offers customers a unique painting process that provides superior protection against weathering, extreme climatic conditions and scratches.

3. Eco-Friendly

MAC steel siding is premium building product made from 86% recycled materials. MAC products have low toxic emissions and are 100% recyclable at the end of their life.

4. Maintenance-Free

MAC steel siding retains its original appearance and requires little maintenance.

5. Curb Appeal

Combining the sleek look of steel siding with the timeless look of natural stone is sure to increase the curb appeal of any home, no matter where it's located.

There are even more reasons why choosing MAC Metal at Semco Stone is the right choice. Contact your Semco Sales Rep today to learn more about how you can bring the classic look of natural stone together with the modern look of steel siding.
