an inspirational guide to building stone
Semco Stone owns and operates our own quarries. We pride ourselves in providing a natural and quality product. Our diverse landscape stone and building stone have some of the most unique products you will find. The beauty of our products is they are made from natural stone, therefore variations should and can be expected. Even though colors in our brochures are as close to the actual stone as possible, photographic and printing techniques – and even actual viewing conditions – can alter perception of color.

Selections should be made from actual samples whenever possible. Our samples represent the general characteristics of the stone. Natural variations can and will occur in size, color, and texture. Our samples are not to be interpreted as the only size within a sample range. Newly quarried stone can oxidize, darken, lighten, or otherwise change from the appearance either shown in the samples or represented in stock. Semco Stone does the best we can to maintain consistent colors and textures. Communication is key with landscapers, homeowners, masons, contractors and your sales representative so that Semco Stone can do our best to provide exactly what you need to complete your dream project.

As the largest distributor of natural stone products in the Midwest, at Semco Stone, we have earned our reputation through consistent products, advancements in technology, and quality and service that exceed industry standards, laying a solid groundwork for your success. If you are unclear about how your stone will arrive or what to expect when it is installed, ask a Semco Stone representative now. We operate to ensure lasting satisfaction and something our customers can enjoy for years to come.

“People don’t buy what you do; they buy why you do it. And what you do simply proves what you believe.”
For over 25 years, Semco Stone has been setting the standards for quality in natural building stone veneer and landscape stone. Located in Missouri, near the Mississippi River, Semco Stone resides in the heart of Limestone Country. Our product offerings include – natural building stone veneer, landscape stone, a variety of retaining wall stone, natural and man-made paving materials, slabs, and so much more! We have provided the elegant beauty of Mother Nature’s time-tested products to contractors, developers, wholesalers, distributors, nurseries, landscapers, garden centers, and retail outlets across the country since 1988.

**WHY SEMCO STONE?**

**WE QUARRY.**
Our local quarries; Cedar Ridge and Blue River, provide a bountiful harvest of six distinctively different limestones. And our Brentwood Quarry boasts one of the most beautiful sandstones you will ever see.

**WE FABRICATE.**
Semco Stone has a state-of-the-art fabrication facility, tumbling and bagging operations. We are continuously striving to exceed industry standards through advancements in technology to better serve our customers.

**WE STOCK.**
As the largest distributor of natural stone in the Midwest, Semco Stone’s Perryville, Missouri yard occupies over 60 acres with an abundant inventory of both landscape and building stone.

**WE DELIVER.**
Whether dispatching our own fleet of equipment regionally, or utilizing our vast partnerships in the transportation industry nationally. We have all logistics needs covered.
Semco Stone has a long-standing reputation for quality when it comes to both our products and our locations. Our large, wide-open facilities feature some of the most organized stone yards in the country with a vast selection of products. Our interior and exterior showrooms offer an inspirational and innovative environment to see installed applications of our products. Our goal is to help you find the natural stone that best suits your project's needs. With Semco Outdoor locations in Kansas City, Missouri and Columbus, Ohio and our parent company, Semco Stone in Perryville, Mo, we proudly serve clients all across the United States.
SEMCO STONE OFFERS BOTH NATURAL STONE FULL VENEER AND THINCUT™

Semco Stone is a leader in producing building stone veneer. Our extensive collection of colors and styles lets you create exactly the look you want with durable, beautiful and affordable stone. The advantage to our product line is we also offer many of the stones in Thincut™ Building Stone Veneer.

WHAT IS THE DIFFERENCE BETWEEN FULL VENEER AND THINCUT™ VENEER?
Most obvious is that standard full veneer has a depth of approximately 4 inches. Thincut™ is available in depths that average approximately 1 inch thick. The fact that Thincut™ is only one quarter the thickness of full veneer means that it is one quarter the weight. The reduced weight allows this veneer to be installed where full thickness veneer would be difficult to install or could not be used, such as on dormers, gables, and existing interior and exterior structures.

WHERE CAN THINCUT™ VENEER BE INSTALLED?
Thincut™ veneer can be applied to any structurally sound surface, including any masonry surface, concrete block, brick, cement, wallboard, plywood, paneling or metal buildings. It is virtually impossible to distinguish between full and Thincut™ once it has been applied.

DOES IT ONLY COME IN VENEER – OR CAN I GET ACCENT PIECES AS WELL?
Semco Stone’s Thincut™ Building Stone Veneer is available in corners, flats and a full line of accents. For more information about Semco Stone’s Thincut™ Veneer please contact the sales representative in your area or log onto www.semcostone.com.
The Semco Stone Random Height Collection can be rustic or refined. Our Random Height veneer is snapped stone with heights created by the natural horizontal layering in the quarry formed millions of years ago. The applications of this stone are endless.

Whether it is your home or your business we want to be a part of designing what reflects who you are – your passion and your personality.

Our Stone. Your Dream...

Whether it is your home or your business we want to be a part of designing what reflects who you are – your passion and your personality.
Semco Stone’s Dimensional Collection is created when quarried stone snapped at random lengths are then sawn to specified heights, usually 2 ¼", 5" and 7 ¾" (10½" Jumpers available).

Our Dimensional Collection creates a more formal look with it’s defined lines which also provides efficient and economical installations.

The old world appearance of Tumbled Dimensional veneer is created when quarried stone snapped at random lengths are then sawn to specified heights, usually 2¼", 5", and 7¾" (10½" Jumpers available). Snapped once more to the correct depth, the Dimensional stone is then tumbled, which gives the impression the stone is aged.

Building Stone by Semco Stone is a natural product, therefore color variations may occur. Selections should be made from actual samples whenever possible. Contact your sales representative for more information.
Semco Stone’s collection of Decorative Edges offers six of the most popular, architectural edges in the industry – adding the perfect finishing touch to counter tops, hearths, caps and so much more.

Decorative Edges can be a subtle, or not so subtle, completion to any environment.

Natural Stone Finishes Legend

- HS = Hearthstone
- SL = Sills
- S = Steps
- C = Caps & Coping
- K = Keystones
- T = Treads
Hearthstones and Mantles by Semco Stone are the final touch to your masterpiece. A natural stone hearth can enhance your fireplace design both in character and texture. Available in a precut standard size of 19" D x 21" W x 2 ¼" H with a sawn top and snapped on four sides.

Hearthstones and Mantles can be custom cut and finished to your specifications, contact your sales representative for more information. See page 90 – 91 for finish options.
KEYSTONES

Keystones give the finishing touch to doors or other masonry openings to enrich the overall finish of your project. The sides can be sawn or snapped for a formal, rustic, contemporary or classic appearance. Keystones are available in various finishes. See page 90 and 91 for finish options.

SILLS

Sills can be used under windows and at the top of a stone waines coat. They are sawn on the top, bottom, ends and back with your choice of snapped or sawn-face. Sills are available in various finishes. See page 90 and 91 for finish options.
QUOINS

Quoins give the finishing touch to corners or entryways and complement any of our veneer blends. Each piece has a snapped face and end. The top and bottom of the Quoins are available as sawn or snapped. Quoins are available in various finishes. See page 90 and 91 for finish options.

TRIMSTONES

Trimstones are precut stones used to stack either around or above windows and doors. They can be utilized either horizontally or vertically. Each piece has a snapped face and ends, and are sawn on top and bottom. Both heights are available in full veneer or ThinCut™.

Quoins and Trimstones can be custom cut and finished to your specifications, contact your sales representative for more information.
FLOORING

Bring the beauty of nature into your home or business with Blue River Sawn Flooring – it is durable, natural, beautiful, and always stylish in any residential or commercial application. Perfect for interior and exterior applications such as patios, walkways, and even pool surrounds. This product is sawn on all sides. Available in 12” x 12”, 12” x 18”, 18” x 18” and 18” x 24” sizes and is 1” thick. Flooring can be custom cut to your specifications, contact your sales representative for more information.

STEPS AND TREADS

Whether used for an indoor staircase, or exterior entrance, Semco Stone Steps and Treads complete your natural stone project. Steps and Treads are available in sawn heights.

Standard Steps are 16”D x 6”H x 36”W or 16”D x 6”H x 48”W. Steps and Treads can be custom cut and finished to your specifications, contact your sales representative for more information.
Caps and Coping are the perfect complement to our natural stone veneers. Available either snapped or sawn they give your project the finished detail for countless applications. The possibilities are endless from pool surrounds to the finishing touch on columns, piers, entrance monuments, staircases and more. Caps and Coping are available in various finishes. See page 90 and 91 for finish options.

Caps and Coping can be custom cut and finished to your specifications, contact your sales representative for more information.
NATURAL STONE COUNTERTOPS

Semco Stone Natural Stone Countertops offer a perfect harmony of performance and beauty in both indoor and outdoor applications. Natural Stone countertops from Semco Stone can meet both the needs of your lifestyle and the demands of your inspiration. Our Countertops can be custom cut to your specifications, contact your sales representative for more information. See page 90 and 91 for finish options.
MONUMENTAL SIGNS

We all know first impressions are important. Semco Stone has created hundreds of great first impressions for neighborhoods, corporate offices and retail stores across the country. We are experienced in producing custom designed monuments, memorials and entrance signs for many unique projects over the years.

Semco Stone has a wide variety of colors, sizes and shapes that can help your project standout. Semco Stone will custom cut to your specifications. Contact your sales representative for more information. See page 90 and 91 for finish options.

This breathtaking Memorial Wall located in Perryville, Missouri was designed to remember those who have served or are serving and those who paid the ultimate price for the freedoms we enjoy today. A beautiful tribute to the Perry County Veterans featuring Custom Cut Brentwood Polished Stone and Weston Cream stone caps. A beautiful tribute to military men and women from generations past as well as those in the future.

Contact your sales representative for more information about how Semco Stone can help you with any custom cut projects.
