CUSTOM CUT NATURAL STONE

UNIQUE: The diversity of natural stone products from Semco Stone encourages limitless design potential. Aesthetically, what you do with the stone is as varied as your imagination.

QUALITY: Semco Stone prides ourselves on providing high-quality natural stone products and we are committed to delivering the best.

INNOVATIVE: Nothing provides that unique look like natural stone, from exterior stone cladding, to window or door surrounds, profiles to straight cuts, in-lined or curved cuts, holes and more. Semco Stone is ready to make your project a reality with natural stone.

THE VALUE OF STONE

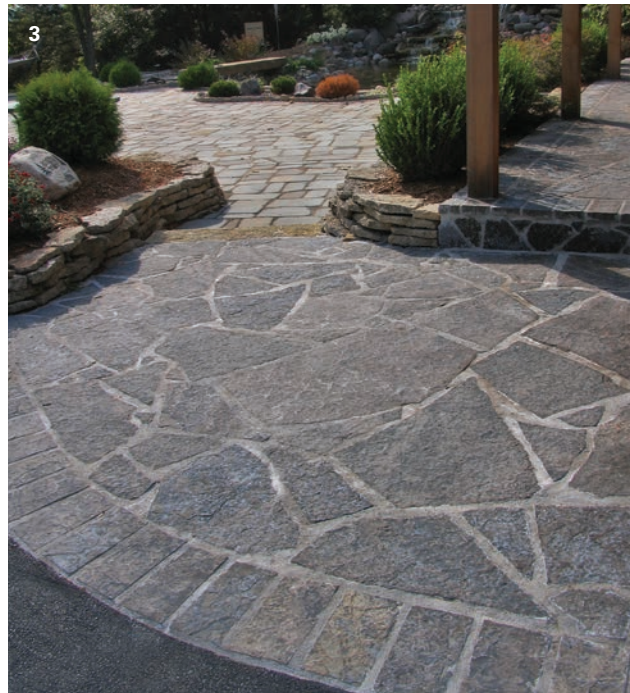

Utilizing natural stone is now more affordable than ever due to advancing stone quarrying and processing technology that has improved efficiency over the years. The value in natural stone is more than just a monetary measure. It involves longevity, ease of maintenance, permanence and stability that far exceed the initial investment.

FIRST IMPRESSIONS

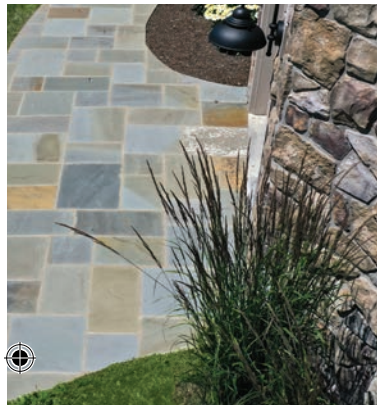

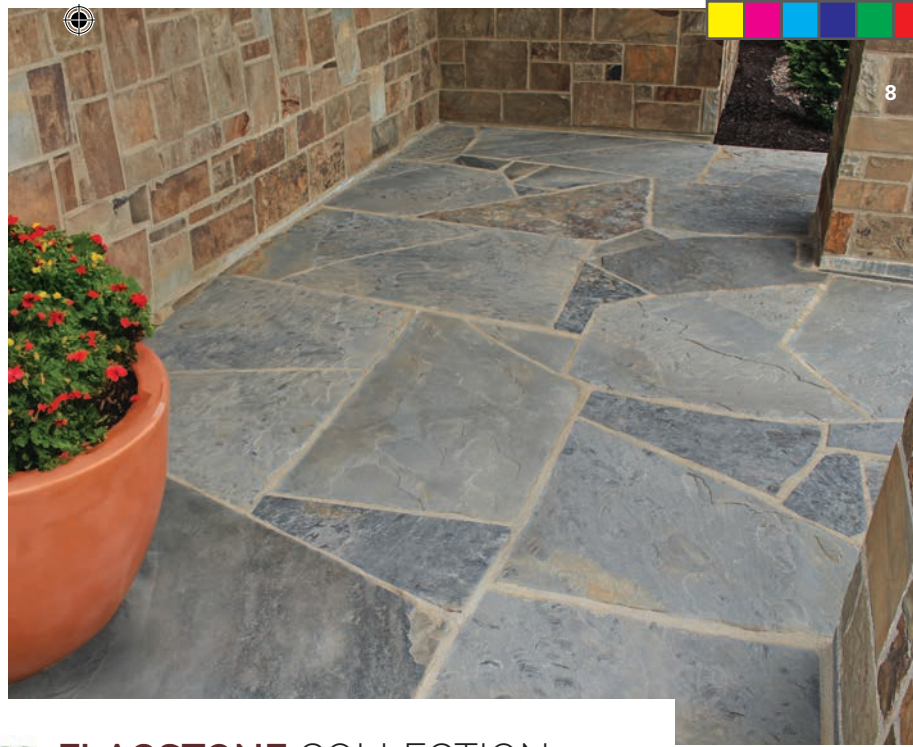

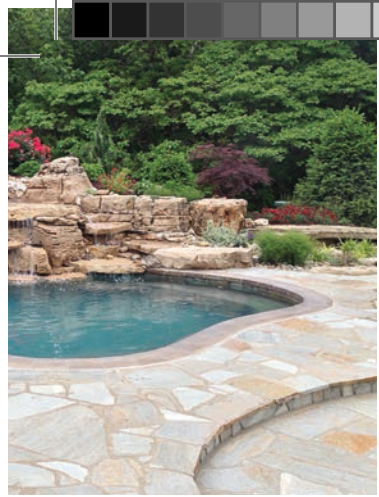

We all know first impressions are important. Semco Stone has created hundreds of great first impressions for neighborhoods, corporate offices and retail stores across the country. We are experienced in producing custom-designed monuments, memorials and entrance signs for many unique projects over the years.

Semco Stone has a wide variety of colors, sizes and shapes that can help your project stand out. Semco Stone will custom cut to your specifications. For additional information contact your sales representative.

CASTLE COLLECTION

Our Castle Collection pattern flagstone is natural stone that has been selected and sawn to specific sizes or shapes. The packaging of these natural stone pavers make it simple for contractors to create a seamless pattern in any landscape design. Pieces range in size from as small as 12" x 12" to as large as 24" x 36". Sizes are cut in 6" nominal increments to allow for a mortar joint to make your design easier with pre-configured layouts.

BENEFITS OF NATURAL STONE TREADS

Natural stone treads offer a wide range of benefits, including durability, aesthetics, low maintenance, safety and environmental sustainability. These benefits make natural stone treads an excellent choice for any space that requires a high-quality, long-lasting, and visually appealing material.

Natural stone treads are highly durable and resistant to wear and tear, which makes them an ideal choice for high-traffic areas. The unique patterns and colors of natural stone treads can create an elegant look that is difficult to achieve with other materials. And because it is the natural color throughout the stone, customizing on-site is convenient and achievable.

THE SEMCO PROMISE

Semco Stone owns and operates our own quarries. We pride ourselves in providing a natural and quality product. Our diverse landscape stone and building stone have some of the most unique products you will find. The beauty of our products is that they are made from natural stone, therefore variations should and can be expected. Even though colors in our brochures are as close to the actual stone as possible, photographic and printing techniques – and even actual viewing conditions – can alter perception of color. Selections should be made from actual samples whenever possible. Our samples represent the general characteristics of the stone. Natural variations can and will occur in size, color and texture. Our samples are not to be interpreted as the only size within a sample range. Newly quarried stone can oxidize, darken, lighten, or otherwise change from the appearance either shown in the samples or represented in stock. Semco Stone does the best we can to maintain consistent colors and textures. Communication is key with landscapers, homeowners, masons, contractors and your sales representative so that Semco Stone can do our best to provide exactly what you need to complete your dream project. As the largest distributor of natural stone products in the Midwest, at Semco Stone, we have earned our reputation through consistent products, advancements in technology, and quality and service that exceed industry standards, laying a solid groundwork for your success. If you are unclear about how your stone will arrive or what to expect when it is installed, ask a Semco Stone representative now. We operate to ensure lasting satisfaction and something our customers can enjoy for years to come.
